Dear Morag Neill

Re: CR/15/0192

I am writing to express my support for Healthy n Happy Community Development Trust's planning application for a single wind turbine development at Flemington Farm.

I am in support of this application as I am in favour of the development of renewable energy sources to try and ensure a sustainable environment for future generations. Healthy n Happy's proposal is entirely consistent with the Scottish Government's commitment to promote the increased use of renewable energy resources to reduce the impact of climate change.

I hope that you will take my support into account when considering the approval of this application.

Yours Sincerely,
