Dear Morag Neill

Re: CR/15/0192

I wish to express my support for Healthy n Happy Community Development Trust's planning application for a single wind turbine development at Flemington Farm.

I am in favour of this application as I support the charitable work of Healthy n Happy and its aim to make Cambuslang & Rutherglen the healthiest and happiest areas to work and live in Scotland. Healthy n Happy offer a range of vital services that are really needed throughout Cambuslang and Rutherglen and it is becoming increasingly difficult to fund charitable work like this. This proposal could potentially support Healthy n Happy's work for the next 25 years.

Secondly, I believe that local communities should benefit from local renewable energy resources and not just private developers. In light of this, I support Healthy n Happy's aspirations to use income generated from the proposal to develop opportunities to create new community and neighbourhood improvement funds that will improve the communities throughout Cambuslang and Rutherglen.

Furthermore, I am also in favour of the development of renewable energy sources to try and ensure a sustainable environment for future generations, and Healthy n Happy's proposal is entirely consistent with the Scottish Government's commitment to promote the increased use of renewable energy resources to reduce the impact of climate change.

I hope that you will take my support into account when considering the approval of this application.

Yours Sincerely,
